Online Games Your Way Quote

“Helping A new player today, may find you a friend to help in the future”

About the Author

Hello I'm known as Online Gamer Richie.

I've been playing Guild wars for over four years and gaming in General for as long as I can remember, and have accomplished many things. At the moment I stand at 48 points in my Hall of monuments and plan on hitting 50.

I'm also the creator of www.online-games-your-way.com. I have played many games including: Guild Wars, World of Warcraft, Lord the Rings Online, Dark Ages of Camelot, Everquest, and many others.

I created this guide to help new and old players alike to make gold in Guild Wars legally. So they did not have to resort to buying gold from gold sellers. Who often times scam and hack players after they have bought gold.

I hope you enjoy the guide. And I hope it helps you make the amount of gold, you want and need, or gives you an idea on how to make more gold.

Thank you and
As Always
Play The Game Your Way

Introduction

So your looking to make a few gold coins and not sure how to go about making it? Maybe you thought about buying the gold from one of those Gold selling sites, but then thought better of it.

Well you have come to the right place this guide will show you how to make a few gold coins, and do it legitimately so your account won't be banned.

So I bet you are wondering what is the fastest way to make money in Guild Wars. That all depends on you and what you like to do.

There are several ways to make gold in Guild wars. And we will go over most of them. So lets get going.

Gold Time Wasters

Before we get into making. Let's talk about the few things that waste our time.

Begging

Begging is a total waste of time, while you're asking for a few gold coins you could have already gone out and made yourself. While it took you an hour to beg for 100 gold, you could have made 500+ gold in the same amount time.

Buying gold

This may seem like a time saver buying virtual gold for real cash. While this may seem to be the true, it really is not. If one is caught buying or

selling in game gold, your account could be banned or terminated. At which point, you will have to buy a new game, or not play for a period of time if it was a suspension of you account.

I don't know about you, but my time is not worth taking the chance on buying gold. Besides that, often times gold sellers hack and scam players that buy gold.

Now to making gold the right way

Running

What is running? That depends on the type you are doing.

There are 3 types in Guild Wars.

Running Missions, Dungeon Runs and Running Places. While all use the words run only one actually has much to do with traveling to any type of place.

Running Places

Put on your Running shoe's because we are running places, Quick!

If you know how to get where players want to be, this is actually quite lucrative. There are so many places that having the right skills to get players where they need to be is as important as it is to know how to get there.

Simon Howden / FreeDigitalPhotos.net

With PvE only skills there are some new and very powerful Builds for running Players where they want to go. There is no single general build that is perfect for running everywhere. There are several builds that can do most of the place runs.

****Important!!***

Remember, practicing runs before you start doing them will give you the edge you need to do them successfully. Players want quick, easy and guaranteed runs. As the old adage says “Practice makes perfect.”

Most Popular Place Runs

The Places in the **Pink color** are Mission towns. Often times one can charge a little more to get to these crucial towns.

The Ascalon/Kryta Run

Ascalon City to Lions Arch
Lions Arch to **Sanctum Cay**

The Crystal Desert run

The Amnoon Oasis to any, part-of, or all of the following:

Seeker's Passage

Hero's Audience

Destiny's Gorge

Dunes of Despair

Augury Rock

Elona Reach

Thirsty River

The Shiverpeaks run

Beacon's Perch to any, part-of, or all of the following:

Droknar's Forge

Deldrimor War Camp

Camp Rankor

Port Sledge

Marhan's Grotto

Copperhammer Mines

The Granite Citadel

Ice Caves of Sorrow

Thunderhead Keep

Iron Mines of Moladune

Eye of the North

Anywhere and everywhere. The areas out there are popular and everyone wants to get to them, Especially to Rata Sum, and Gadds Encampment.

Then there are the any other place a person wants to get to locations, that doesn't require going through Missions or Quests.

Most Popular Mission / Quest Runs*The Tyria Missions Runs*

Sanctum Cay

Elona Reach

The Canthan Missions Runs

Zen Daijun

Imperial Sanctum

The Elona Missions Runs

Ruins of Morah

The Time is Niegh

- *This one is for armor*

Eye of the North

The Great Destroyer

While these are some of the most popular mission runs, other missions can be ran as well. Finding a mission run you can do solo is the key. Doing it fast and with a full party maximizes your profits.

Dungeon Runs

OK, dungeons are all over the Eye of the North and there are so many of them that making a list is just not practical. The thing with dungeon runs though is many of them require a friend to help you do them. That means splitting the profits. But hey, what is half of 6 players paying 5k to 10k+ each?

A ton of money!

Normal Mode vs Hard Mode

There is a big difference in how much one can charge between these 2 modes as well as difficulty levels.

Running from places is always done in normal mode to make the run the easiest and safest for the runner themselves.

Missions and Dungeons

While these can be done in either mode, it is often the case that one can make more gold running the normal mode several times in the amount of time it would have taken to do it once in hard mode.

All this means is to figure out which way will be better for you .

Charging for Runs

Prices vary as much as each run does. The low end you will make is 250g the high end 10+k per player for each run. What this all means is you can make a fortune with just a few runs a day.

Photo by renjith krishnan / FreeDigitalPhotos.net

*Having a hard time finding players that are willing to pay for run? Then why not advertise

go to [Online Games Your Way Runners page](#) and let everyone know how good of a runner you are. Even if you are not a runner but need to find a good one, you can find many good runners there.

Mats and Mods

What are Mats and Mods? Its the abbreviations for materials and modifications.

Selling Mats

You can make large amounts of gold selling mats. While material prices fluctuate frequently it may seem to be a daunting task of keeping track of the prices when you go out to sell.

The truth is sometimes selling the mats to the materials merchant is better than selling to a player. Not only will you sell faster, but sometimes you will get a little more than you normally would from other players trying to lowball you..

Modifications

There are several types of mods. Mods come in two types, Armor and Weapons. The more profitable of these two will be the armor. Armor mods come in two types, Runes and Insignias.

Weapon mods, on the other hand, can have huge profits, but they are not as common as good armor mods. The weapon mods have such a variety that getting the good mods are low and not often.

Weapons

Weapons have huge profits, if you know what your looking for. Even weapons that don't have the perfect stats can sell for big money.

So how do you know which weapons will be worth a few bucks? The best general rules for determining value is first determine how rare the item is. Greens > Golds > Purples > Blues

The next thing to look at is the requirement for using the weapon and if its maxed for damage. Requirement 9 + maxed weapon damage is normally the best you can get for a weapon. There are requirement 8 + maxed damage for weapon (but these are extremely rare).

Basically all this means is that as long as the weapon is maxed, and has a low requirement (the lower the better), You can get more money for the item.

Weapon Skins

What are exactly skins? Skins are what the weapon actually looks like.

Skins can actually determine the value of a weapon by how it looks. The cooler than the weapon looks, the more value it has. Some weapons have a very rare look to them. With that being said, the value of these weapons go up.

Most rare weapons are green weapons. Therefore they drop from bosses.

What all this means is determining the value of the weapon is determined by rarity, skin, and requirement and weapon maxed damage. Not all weapons are going to be valued the same way. Some weapons that you may think are worth more ,will not be worth what they are thinking.

So how does one determine the valuable weapon easily. There are several ways the two main ways of doing this are in the game price checks, or my personal favorite [Guild wars auction](#)

·
Guild Wars auction is a website that acts sort of like eBay. Where you

can buy and sell in game items for in game gold

Guild wars auction does not allow items to be sold for real-life cash, due to the rules of the Guild wars game. It is against the game policies for Gold or items to be sold for real-life cash. If one is caught buying or selling in game items or gold for real-life cash a players account can and or may be terminated, and or banned.

White Items

While White items have no value to players the true value comes from Npc's. Npc's will buy white items for a certain value. These values can be increased by identifying the item. While this gives a possibility of the value going up, it is often not worth doing. Due to the cost of buying an identification kit.

This brings me to salvage an identification kits. This is a sinkhole that Guild wars has created to allow people to spend their hard-earned gold on items that cost more than they should.

Identification kits

There are two types of identification kits. One kit has 25 uses, the other kit has 100. When one looks into the value of these uses it turns out that the kit with 25 uses, cost less in the long run over the kit with the hundred uses.

Salvage kit

There are three types of salvage kits. One kit allows 25 uses but does

not allow you to rip runes and mods off. The second kit has 25 uses as well but allows you to remove mods and runes. The final kit has a 100 uses to it allows the removal of mods and runes.

You will find here once again that the 25 uses will be cheaper overall for salvaging. However, using the second version allows you to rip off mods and runes. If used for just regular salvage, you will be wasting gold.

Dye

When talking dyes we are really only talking about two different types even though there are a lot more.

We are talking white and black dyes. These are the only two that have any real value. These are most often wanted by everyone. You'll make more money selling these two dyes to players than to the dye merchant.

The price of the Dyes fluctuate. So if selling to the Dye merchant at times, the prices will be higher or lower though out the day.

Edited Guild Wars Screenshot: Dye Preview and all dyes

Zaishen Keys

Zaishen keys sell for 3 to 6K+ . What is a Zaishen key? And how does one get one? Zaishen keys are rewards given for several reasons. These keys are used to unlock the Zaishen chest.

The two fastest ways of receiving these keys are:

- Zaishen coins - which are given to a player after completing Zaishen quests
- Balthazar points - which are given to players through PvP.

Zaishen coins:

Given through several Zaishen quests:

1. Zaishen bounty – This is where you hunt down a specific mob and defeated
2. Zaishen vanquish – This is where you clear an entire area in hard
3. Zaishen mission – This is where you complete a mission. Plus bonuses
4. Zaishen PvP – This is where you complete a PvP task

Balthazar points:

Gotten through several PvP challenges:

1. Random Arenas – This is where you are paired up with three random players to battle another random team
2. Codex Arena – This arena you get to create your own teams, using already preselected skills to battle other teams
3. Heroes Ascent – This arena you get to create your own eight man team that battles other eight man teams
4. **Zaishen Challenge** – You get to create your own four man team to battle premade NPC teams
5. **Zaishen Elite** – You get to create your own four-man team to battle premade NPC teams in consecutive battles
6. **Training Arenas** – Create your own four-man team (or use a premade team) to battle premade NPC teams in all of the PvP types of battles

**Zaishen challenge, Zaishen elite, training areas have a limited amount of*

Balthazar points that can be gotten each day.

*Zaishen elite is the quickest way to gain Balthazar points to purchase Zaishen keys.

War Supplies

War supplies are given after completing War Kryta quests. These supplies are used to purchase Royal Gifts and Medals of Honor. Medals of Honor are used to purchase specialized weapons, Oppressor weapons.

Oppressor Weapons:

Oppressor Weapons are worth 60K+ to other players because they can be dedicated in a player's Hall of Monuments. The easiest way to do this is to allow the person to select the weapon they want, and you use the Medals of Honor to purchase that weapon.

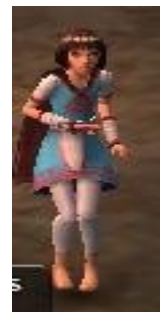

Royal Gifts:

Royal Gifts can be sold to players for around 5K+ each. The reason for this is the presents have a chance to drop mini pets, it also drops sweet tooth points, drunkard points, and other useful items.

You can also sell War supplies directly to players for them to trade in for Medals of Honor. By doing this, it will allow them to purchase the oppressor weapon that they want.

Mini Pets

Mini pets are a money maker. Players want these vanity items for

many reasons and the biggest is for the Hall of Monuments. It is almost impossible to get 50 of these without buying them from other players. So if your not interested in the pets, you can sell them for big bucks.

Grinding

There are two forms of grinding Quantity and Quality. Each has a different objective, while done in the same way. Which makes doing both of these at the same time very handy.

Quantity Grinds

Quantity is just what it means, its all about the amount of stuff. The items that stack are what you are looking for in this type of grind. The more you stack the more you will be able to make by selling to Npc's.

Quality Grinds

Quality, these are usually items that are rare or uncommon, or at the moment have some worth. This can be something like weapons, or even items the traveler wants. Value is what you are looking at for this.

While, we have talked about all types of ways of making gold. The one thing we haven't gone over is tactics. While each of these ways will make you a bunch of gold, you can actually combine them to make huge profits.

If you are willing to take the time with [Guild Wars Auctions](#), you can easily double your profits with the right items up for sell there. You can do some research on the site to see what items are worth. Then sell them for nice profits with out having to spam chats.

If you are a people person, you can use the trade chat to sell items, while this can be effective, it is also time consuming.

Selling is a process that you want to do quickly. That is what GWAuctions does, saves time.

As Always

Play The Game Your Way

Laterz

We here at [online games your way](http://online-games-your-way.com) believe that having as much information as possible is always best. So we are offering some of the best resources that we ourselves use.

We believe in playing the game your way. With this means is everyone has their own play style, and knowing that play style allows you to become the best player you can become.

Build Resources

The reason this e-book not give any actual run builds because there are websites out there that have plenty of good run builds and can keep up with the changes for the runs better than I. One of the better sites for these builds is

[PvX Wiki](#) – A site that has many types of builds including run builds for all types of runs.

Other Resources

[Online games your way](#) – in game site that covers many games and is always changing to help you play your way. You can find plenty of tips , tricks, and walk-through to help you through much of the main parts of [Guild Wars](#). Found in the [Guild Wars Tips pages](#).

Our Other Guides

Guild Wars Account Safety

Guild Wars Gold Guide

Guild Wars Miniature Pets

Guild Wars Mission Lists

Guild Wars Title Lists

Guild Wars Vanquishing Lists

Guild Wars Auctions – a quick useful way to sell in game items for in game gold.

Products of use

Guild Helper: Guild Creation Guide – Give Your Guild a fighting chance to Survive. Only 1% of all MMORPG guilds will last over three years. Most will fail within six months. Don't be a statistic.

Game Copy Wizard – Ever buy a new computer, go to Download or play a game and discover “OMG A SCRATCH” its ruined. Well, not anymore with game copy Wizard you can completely backup any video game using a CD or DVD burner.

Things of Interest

One of the things I'm often asked is how do I become a game tester. So I went and did some searching and I found these sites that may offer the information you are looking for.

Gamer Testing Ground
